

Integration in different shop systems

For many shop systems there are ready-to-use plugins or prepared code snippets that make integration easier.

The list is constantly extended, if you're unable to find your shop system, please contact us and we will try to help you.

Despite careful examination we do not take over guarantee for the functionality and possibly resulting damage on your shop.

1. ChannelPilot

1. select the channel billiger.de under "PSM / FEEDENGINE".
2. set CHANNELTRACKER MODE to "active (including sales)" or "active (without sales)", enter the shop ID at CHANNELTRACKER SHOP ID.

illustration:

The screenshot shows the 'KANALEINSTELLUNGEN' (Channel Settings) page in the solute interface. The page is divided into several sections. At the top, there are navigation tabs: 'START', 'PSM / FEEDENGINE', 'MARKTPLÄTZE', 'MARKTPREISANALYSE', and 'WERKZEUGE'. Below the tabs, there are four main action buttons: 'EINSTELLUNGEN BEARBEITEN', 'KATEGORIEN VERWALTEN', 'EXPORT ANPASSEN', and 'BESTELLUNGEN ANZEIGEN'. The main content area is titled 'KANALEINSTELLUNGEN' and includes a sub-header 'Ihre Kanaleinstellungen für eine optimale Analyse.' and a link '► Mehr Informationen'. The settings are organized into a grid of input fields and dropdown menus. A red box highlights the 'CHANNELTRACKER MODUS' and 'CHANNELTRACKER SHOP-KENNUNG' fields. The 'CHANNELTRACKER MODUS' is set to 'aktiv (inklusive Umsätze)' and the 'CHANNELTRACKER SHOP-KENNUNG' is set to '12345'.

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.

4. JTL3 / JTL4

1. Open the folder of the current template in the template directory and edit the file "order completion.tpl" there.
2. Insert the following code before the last include "{include file='tpl_inc/footer.tpl'}" (Important: in **one** line!):

a) including shopping cart

```
nAnzahl}&val_{$i}={$order-
>fPreis|string_format:"%.2f"}{/if}{/foreach}" width="1" height="1"
border="0" alt="" />
```

b) excluding shopping cart

```

```

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.

5. Prestashop

1. insert the following code on the order-confirmation page:

```
{counter start=1 assign='idp' print=false}
{assign var='chaineprod' value=''}
  {foreach $products as $p}
    {assign var=chaineprodi
value="&aid_{$idp}={$p.product_id}&name_{$idp}={$p.product_name
|urlencode}&cnt_{$idp}={$p.product_quantity}&val_{$idp}={$p.pro
duct_price}"}
    {assign var='chaineprod' value="{ $chaineprod}{ $chaineprodi}"}
    {counter print=false}
  {/foreach}

```

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.

6. Magento

Link to magento module (including sales-tracking): <https://bitbucket.org/solutede/billigerde-connect>

manual integration:

1. Edit the file "success.phtml" (usually in the directory template/checkout/success.phtml)
2. Insert the following code:

```
<?php
    /* <!-- Billiger.de Sales Tracking --> */
    $_billig_id = 'shop_id=12345';
    $_billig_oid = $order->getIncrementId();
    $_billig_val = $order->getSubtotal();
    $priceExclVat = 0;
    $_items = $order->getAllItems();
    foreach($_items as $_item) {
        $priceExclVat += $_item->getRowTotalExclTax();
    }
    $_billig_options = $_billig_id . '&oid=' . $_billig_oid .
    '&val=' . $priceExclVat;
    ?>
    
```

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.

7. plentymarkets

1. Insert the following code on the order-confirmation page:

```

```

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.

8. Shopware

Link to third-party plugin:

9. WooCommerce

1. Navigate to "Design -> Editor" in the admin area. Then select the "functions.php" on the right.
2. Insert the following code:

```
/** billiger.de Sales Tracking */

add_action ('woocommerce_thankyou', 'billiger_tracking');
function billiger_tracking($order_id) {
$order = new WC_Order($order_id);
$total = $order->get_total();
$shipping = $order->get_shipping_total();
$tax = $order->get_total_tax();
$sale_amt = $total-$shipping-$tax;
print '';
}
```

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.

10. Lightspeed

in the dashboard on

"Settings > Web Page Settings (3rd column) > Web Extras > Tracking".

1. Insert the following code:

a. including shopping cart

```

```

b. excluding shopping cart

```

```

Note: The example shop ID 12345 has to be replaced by the shop ID of your shop.
